Impressions from the Intesa Sanpaolo Innovation Lab and Learning Space

Meeting Theme

Our 8th FOP meeting takes place at the stunning new headquarters of Intesa Sanpaolo in Turin – an internationally recognized architectural masterpiece by Renzo Piano ([more about the building here](#)). An entire floor of this 166m high structure, which Piano calls “an environmental and social laboratory” is dedicated to learning and innovation.

Thanks to the generosity of our friends Roberto Battaglia (former CLO and now head of HR, Investment Banking) and Renato Dorrucchi (new CLO) we will have the opportunity to experience this space and dig deeper into the remarkable innovation and learning practice of Intesa Sanpaolo, which – among other things - creatively leverages the region’s start-up culture to drive the digital transformation of the bank and the financial industry at large.
